QUIMBAYA GOLD INC.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

(Unaudited)

(Expressed in Canadian Dollars)

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2025

1. NATURE AND GOING CONCERN

Quimbaya Gold Inc. (the “Company”) was incorporated in Canada under the Canada Business Corporations Act on May 27, 2020 and continued into British Columbia under the Business Corporations Act on May 1, 2025. The Company is principally engaged in the acquisition and exploration and development of mineral properties in Colombia. The Company maintains its registered office at Suite 501 – 3292 Production Way, Burnaby, British Columbia, V5A 4R4. The Company is listed on the Canadian Securities Exchange under the symbol “QIM” and OTCQB under the symbol “QIMGF”.

These condensed consolidated interim financial statements have been prepared in accordance with IFRS® Accounting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company had working capital of \$2,664,886, including prepaids of \$1,280,899, (December 31, 2024 – deficiency of \$587,203) and accumulated deficit of \$12,214,833 (December 31, 2024 - \$5,994,637) as at September 30, 2025. The Company reported a net loss of \$6,220,196 and negative cashflows from operations of \$3,525,681 for the nine months ended September 30, 2025. The Company’s ability to continue as a going concern is dependent upon its ability to raise funds primarily through the issuance of shares or achieve profitable operations. The outcome of these matters cannot be predicted at this time. If the Company is unable to obtain additional financing, management may be required to curtail certain expenses. An inability to raise additional financing may impact the future assessment of the Company as a going concern. These events and conditions indicate a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern.

World Events

The conflicts in Ukraine and the Middle East and the recent political tensions between the United States and many countries have contributed to significant volatility in financial and commodity markets. These ongoing events have impacted global commercial activity, including causing significant fluctuations in worldwide demand and prices for certain commodities. The duration and impact of the conflicts and political tensions and magnitude of the impact on the economy and financial effect on the Corporation is not known at this time.

2. BASIS OF PREPARATION**Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statement, including IAS 34, Interim Financial Reporting. Accordingly, these financial statements do not include all of the information and footnotes required by IFRS for complete financial statements for year-end reporting purposes

These condensed consolidated interim financial statements should be read in conjunction with the Company’s audited annual consolidated financial statements as at and for the year ended December 31, 2024, and the notes thereto.

Basis of consolidation and presentation

The condensed consolidated interim financial statements have been prepared on a historical cost basis. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information

2. BASIS OF PREPARATION *(cont'd...)***Basis of consolidation and presentation** *(cont'd...)*

These condensed consolidated interim financial statements include the accounts of the Company, and its subsidiaries as follows:

Company	Place of Incorporation	Effective Interest	Principal Activity	Functional currency
Golden Pacifico Exploration S.A.S. ("Golden Pacifico")	Colombia	100%	Mining exploration	Colombian peso
Explogold Ingenieria y Consultoria S.A.S. ("Explogold")	Colombia	100%	Mining exploration	Colombian peso
Minera Buey Aures S.A.S. ("Minera Buey")	Colombia	100%	Mining exploration	Colombian peso
Soluciones Ambientales Del Nordeste S.A.S. ("Nordeste")	Colombia	100%	Mining exploration	Colombian peso
Quimbaya Gold Colombia S.A.S.	Colombia	100%	Mining exploration	Colombian peso
Quimbaya Gold SA	Panama	100%	Mining exploration management	Canadian dollar
Tahamies Recursos Naturales S.A.S (formerly Minera Tahamies S.A.S.)	Colombia	100%	Mining exploration	Colombian peso
Inversiones Tahamies S.A.S.	Colombia	100%	Mining exploration	Colombian peso

Subsidiaries are entities over which the Company has exposure to variable returns from its involvement and has the ability to use power over the investee to affect its returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company until the date on which control ceases. The accounts of the subsidiary are prepared for the same reporting period as the parent company, using consistent accounting policies. Inter-company transactions, balances and unrealized gains or losses on transactions are eliminated upon consolidation.

Use of judgments and estimates

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed consolidated interim financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances, as the basis for its estimates and assumptions. Revisions to accounting estimates are recognized prospectively from the period in which the estimates are revised. Actual outcomes may differ from those estimates under different assumptions and conditions.

Deferred taxes

The calculations for current and deferred taxes require management's interpretation of tax regulations and legislation in the various tax jurisdictions in which the Company operates, which are subject to change. The measurement of deferred tax assets and liabilities requires estimates of the timing of the reversal of temporary differences identified and management's assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income before they expire, which involves estimating future taxable income.

The Company is subject to assessments by various taxation authorities in the tax jurisdictions in which it operates, and these taxation authorities may interpret the tax legislation and regulations differently. In addition, the calculation of income taxes involves many complex factors. As such, income taxes are subject to measurement uncertainty and actual amounts of taxes may vary from the estimates made by management.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Unaudited)

(Expressed in Canadian Dollars)

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2025

2. BASIS OF PREPARATION *(cont'd...)*

Use of judgments and estimates *(cont'd...)*

Share-based payments

The Company has applied estimates with respect to the valuation of shares issued for non-cash consideration. Shares are valued at the fair value of the equity instruments granted at the date the Company receives the goods or services for share-based payments made to those other than employees or others providing similar services.

The Company measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted for share-based payments made to employees or others providing similar services. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the fair value of the underlying common shares, the expected life of the share option, volatility and dividend yield and making assumptions about them.

Loans payable

Management has made estimates with respect to the market interest rate applied to the convertible loans payable (Note 5).

The key areas of judgment applied in the preparation of the condensed consolidated interim financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- Provisions

Management's determination of no material restoration, rehabilitation and environmental exposure is based on the facts and circumstances that existed during the year.

- Functional currency

The functional currency of the Company and its subsidiary is the currency of their respective primary economic environment. Judgement is necessary in evaluating each entity's functional currency.

- Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay its ongoing operation expenditures and to meet its liabilities for the ensuing year, involves significant judgment based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances (Note 1).

- Mineral Properties

The application of the Company's accounting policy for exploration and evaluation expenditures requires judgment in determining whether it is likely that future economic benefits are likely to arise from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions made may change if new information becomes available. If, after the expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

2. BASIS OF PREPARATION *(cont'd...)*

Use of judgments and estimates *(cont'd...)*

- Mineral Properties *(cont'd...)*

Exploration and evaluation assets are reviewed for changes in facts and circumstances suggesting the carrying amount exceeds the recoverable amount at each condensed consolidated interim statement of financial position date. This determination requires significant judgment. Factors which could trigger an impairment review include, but are not limited to, significant negative industry or economic trends and interruptions in exploration activities. The Company's review considers the following:

- The period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- Substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- Exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources, and the entity has decided to discontinue such activities in the specific area; and
- Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

- Deferred tax

The value of deferred tax assets is evaluated based on the probability of realization; the Company has assessed that it is improbable that such assets will be realized and has accordingly not recognized a value for deferred taxes.

- Exploration and evaluation assets

Title to mineral properties involves certain inherent risks due to the difficulties of determining the validity of certain mineral titles as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties.

- Acquisitions

The acquisitions in Note 4 required management to make a judgment as to whether the entities constituted a business under the definitions of IFRS 3. The assessment required management to assess the inputs, processes, and ability of those entities to produce outputs at the time of acquisition. Pursuant to the assessment, the acquisition of the entities was considered an asset acquisition.

4. EXPLORATION AND EVALUATION ASSETS**Berrio Project, Colombia**

On November 10, 2020, the Company entered into an asset purchase agreement (“APA”) with Pacifico Holdings S.A.S. (“Pacifico Holdings”) and shares purchase agreement (“SPA”) with West Rock Resources Panama Corp. (“West Rock”). Pursuant to the agreements, on December 10, 2020, the Company acquired all of the issued and outstanding common shares of GPE SAS which holds the Concession Mining Contact No. 6822 in the Antioquia region of Colombia (the “Berrio Project”). The Company paid total cash consideration of \$185,579 to Pacifico Holdings and West Rock for GPE SAS and certain related historic drill core with respect to the Berrio Project. Both agreements are with unrelated parties. The Company acquired by application three additional claims in the Antioquia region of Colombia.

Tahami and Maitamac Projects, Colombia

On December 21, 2023, the Company acquired all the issued and outstanding shares of Explogold, Minera Buey and Nordeste (collectively, the "Companies") by way of share purchase agreements from Remandes Corporation S.A. ("Remandes") (the "Transaction").

Pursuant to the Transaction, the Company acquired the Tahami and Maitamac Projects in Colombia held by the Companies:

- The Tahami Project consists of two titles covering approximately 622 hectares and is located 158 kilometers northeast of Medellin in the Segovia-Remedios mining district of Antioquia. A portion of the purchase price will be held back pending the successful transfer of certain mining applications covering a total aggregate area of approximately 2,494.4 hectares.
- The Maitamac Project consists of 6 mining applications covering approximately 26,102 Ha and is located 45 km southwest of Medellín in the Abejorral and Sonson municipalities.

The Transaction was executed as three (3) separate share purchase agreements among the Company, Remandes and each of the Companies. The purchase price payable by the Company for all of the issued and outstanding shares of the Companies (the "Purchase Price") was satisfied by:

- (i) the payment to Remandes of a deposit in the amount of US\$100,000 (paid - \$136,012); and
- (ii) the issuance of 10,000,000 shares in the share capital of the Company to Remandes (the "Consideration Shares"). The Consideration Shares are subject to a 24-month contractual escrow arrangement.

The Transaction was a related party transaction as Alexandre P. Boivin, President and CEO of Quimbaya, is a control person of Remandes.

In the year ended December 31, 2024, the Company entered into two agreements to acquire additional claims in the Tahami Project:

4. EXPLORATION AND EVALUATION ASSETS (cont'd...)**Tahami and Maitamac Projects, Colombia (cont'd...)**

The Company acquired one concession with the acquisition of Inversiones Tahamies S.A.S. for total consideration of US\$205,000 of which the Company has paid US\$125,000 and paid the balance of US\$80,000 in the period ended September 30, 2025.

The Company acquired four concessions with the acquisition of Tahamies Recursos Naturales S.A.S. for total consideration of US\$400,000 of which the Company has paid US\$100,000 and issued 274,000 common shares valued at US\$100,000 (\$137,000). The Company was due to pay US\$100,000 on or before the six month anniversary (November 8, 2024) and the balance of US\$100,000 on or before the first anniversary of the purchase agreement (May 10, 2025). Subsequent to December 31, 2024, the Company renegotiated the payments to reduce the payable to a one-time payment of US\$135,000 which was completed.

The acquisition of the entities has been accounted for as an acquisition of net assets, rather than a business combination, as the net assets acquired did not represent a separate business operation. The entities had no other assets or liabilities than the concession titles. As at September 30, 2025, the Company had no outstanding property purchase obligations.

In the nine months ended September 30, 2025, the Company acquired two concessions contiguous to the Tahami project for total consideration of \$217,345.

6. CONVERTIBLE DEBENTURES

In the year ended December 31, 2023, the Company entered into a convertible loan facility for total proceeds of \$280,000 with a director of the Company ("Loan Facility"). The convertible loans accrued interest at a rate of 10% per annum and were convertible into common shares, along with accrued interest, at the option of the holder at a conversion price of \$0.50 per common share. The Company received funds of \$135,000 on May 11, 2023, and a further \$145,000 on June 9, 2023. The convertible loans mature two years from the date of issuance.

After valuing the financial liability component of the convertible debentures, a residual value was assigned to the conversion feature. The Company considered the market interest rate for comparable entities and instruments in the market. The Company has estimated that comparable instruments would bear an interest rate of 18%.

In September 2023, the Company repaid \$150,000 to the lender against principal of the convertible loans. On November 28, 2023, the lender and Company agreed to the cancellation of the bonus warrants from which point the amounts accrue interest at a rate of 12% of annum.

In December 2023, the Company borrowed an additional \$100,000 accruing interest at a rate of 12%. All balances mature two years from the date of the first issuance under the facility on May 9, 2025.

- c) Completed a non-brokered private placement of 11,525,299 units at a price of \$0.35 per unit ("July Units") for gross proceeds of \$4,033,854. Each unit is comprised of one common share and one warrant. Each warrant is exercisable at a price of \$0.60 for a period of 3 years, expiring on July 4, 2028.

The Company paid cash commissions of \$16,800, incurred other share issuance costs of \$12,421 and issued 48,000 broker warrants valued at \$13,262 using the following Black-Scholes assumptions: risk-free interest rate of 2.69%, volatility of 119.8% and expected life of 3 years.

- d) Issued 86,531 July Units at a value of \$0.35 per unit valued at \$30,286 in settlement of amounts outstanding.

Year ended December 31, 2024

In the year ended December 31, 2024, the Company:

- e) Issued 7,785 common shares at a price of \$0.44 per common share valued at \$3,425 in settlement of services rendered.
- f) Issued 1,057,140 common share units consisting of one common share and one-half common share purchase warrant to settle liabilities totalling \$528,570. Each whole unit warrant is exercisable for a period of one year at an exercise price of \$0.75. Amounts settled included \$150,000 in accounts payable, \$250,355 of loan principal and accrued interest (Note 5) and \$128,215 of convertible debentures (Note 7).
- g) Issued 1,425,000 common share units consisting of one common share and one-half common share purchase warrant at a price of \$0.50 per unit for gross proceeds of \$712,500. Each whole unit warrant is exercisable for a period of one year at an exercise price of \$0.75.
- h) Issued 274,000 common shares valued at \$0.50 pursuant to the acquisition of mineral property concessions (Note 4).
- i) Completed a tranche private placement of 696,548 units of the Company, at a price of \$0.50 per unit, for aggregate value of \$348,274. Of the private placement, \$144,850 was received in cash proceeds and \$203,424 was issued as shares for services. Each unit was composed of one common share and one-half share purchase warrant. Each warrant is exercisable for a period of one year at an exercise price of \$0.75 per warrant. The warrants were assigned a residual value of \$80,103 or \$0.23 per whole warrant. The Company paid a finder's fee of 43,680 finder's warrants, which have a one-year term from closing and an exercise price of \$0.75. The finder's warrants were valued at \$0.23 per warrant for a total value of \$10,046.
- j) Issued 3,536,600 units at a price of \$0.30 per unit for aggregate value of \$1,060,980. Each unit was composed of one common share and one share purchase warrant. Each warrant is exercisable for a period of two years at an exercise price of \$0.40. The value of each share unit matched the share price on the grant date. Consequently, the value of the entire unit price was assigned to the shares, leaving no residual value for the warrants.
 - a. 2,708,331 units were issued for cash for gross proceeds of \$812,499;
 - b. 392,378 units were issued in settlement of debts (Note 5); and

Share-based payments

During the nine months ended September 30, 2025, the Company granted 3,805,000 (2024 – 50,000) stock options with a weighted average fair value of \$0.035 (2024 - \$0.19) per option. The Company recognized share-based payments expense of \$1,482,854 (2024 - \$9,410) for options granted and vesting during the nine months ended September 30, 2025

Share-based payments expense with respect to stock options is estimated using the following assumptions: The expected volatility assumption was determined through the comparison of historical share price volatilities used by similar publicly listed companies. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. The Company has not paid and does not anticipate paying dividends on its common shares.

The following weighted average assumptions were used for the Black-Scholes option-pricing model valuation of stock options vesting during the period:

	For the nine months ended September 30, 2025	For the nine months ended September 30, 2024
Share price	\$ 0.51	\$ -
Risk-free interest rate	2.64%	-
Expected life of options	2.68 years	-
Expected annualized volatility	125.40%	-
Dividend rate	0%	-
Forfeiture rate	-	-

As the performance conditions of the RSU granted were not market-related, the fair value per RSU used to calculate compensation expense for the RSU granted is determined to be equal to the market price on the date of grant as determined by recent subscription prices for the Company's common shares paid by third parties. The Company recognized share-based payments expense with respect to RSUs granted and vesting of \$1,021,711 (2024 - \$nil) in the nine months ended September 30, 2025.

During the period ended September 30, 2025, the Company incurred a financial loss of \$187,988 due to a business compromise, which is undergoing investigations. The Company is devoting the utmost efforts towards recovery of the funds.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**Financial instruments**

Cash, accounts receivables, accounts payable and loans payable are carried at amortized cost. The Company considers that the carrying amount of cash, accounts receivable and accounts payable measured at amortized cost to approximate their fair value due to the short-term nature of the financial instruments. The fair value of the loans payable and accrued interest are disclosed in Note 5. The undiscounted value of the convertible debentures (Note 6) as at September 30, 2025 was \$Nil.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT *(cont'd...)*

Financial risk factors

Credit risk

The Company is exposed to credit risk relative to the liquidity of cash, amounting to \$1,706,278 at September 30, 2025 (December 31, 2024 – \$47,354). As the Company's policy is to limit cash holdings to instruments issued by major Canadian banks, the credit risk is considered by management to be negligible. As at September 30, 2025, the Company had an immaterial amount of cash balances in Colombia.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to pay financial instrument liabilities as they come due. As at September 30, 2025, the Company had positive working capital of \$2,664,886 (December 31, 2024 – deficiency of \$587,203). The Company's financial obligations include accounts payable and loans payable, which have contractual maturities of less than a year.

Interest rate risk

The Company's financial asset exposed to interest rate risk consists of cash. At September 30, 2025, the Company maintained all of its cash balance on deposit with a major Canadian bank with no expectation of interest rate returns or impact. Interest-bearing debts are at fixed rates with the financial impact known at the time of execution.

Foreign currency risk

The Company operates in Colombia and is therefore exposed to foreign exchange risk arising from transactions denominated in the Colombian peso ("COP\$"). The Company's financial assets and liabilities are held in COP\$ and are therefore subject to fluctuation against the Canadian dollar, its reporting currency. The Company has no program in place for hedging foreign currency risk.

12. CAPITAL MANAGEMENT

The Company's capital management objective is to maintain financial capacity that is strong to sustain the future development of the business.

The Company's capital structure includes shareholders' equity of \$8,280,810 (December 31, 2024 – \$4,549,568). The Company manages its capital structure to maximize its financial flexibility to adjust to changes in economic conditions. The Company is not subject to externally imposed capital requirements.

There were no changes to the Company's approach to capital management during the period ended September 30, 2025.
